the teacher is very strict this means they can help me focus on my work
 Because the teacher always explains and if someone is naughty they will tell them not to do it
 Because I feel safe with teachers around.
 because the teachers sort everything out and help us
 teachers help me a lot
 My friends and teacher are very kind
 Because I really like the Teachers.
 help me when teaching
 Math is getting harder though the days.
 the teaching is good and so is my behavior.
 because the teachers sort everything out and help us
 Normally it is ok but teaching is excellent
 because the teachers sort everything out and help us
**TEACHERS EXPLAIN ALL THE METHODS WE DO NOT UNDERSTAND AND THEY TEACH US
 HOW TO BEHAVE LIKE NICE KIDS**
 because the teacher is good
 Teaching is very good at this school and if our teachers notice any mistakes in our work or even their work
 they go through it thoroughly
 They teach us worthwhile things.
 i think this because when we are confused they help me understand
 The teaching is very good and do helpful things but the behavior isn't as good as the teaching.
 i learn every day

Teaching is good but the behavior is not the best

The teaching is good at school but the childrens behaviour in our schhol could be nicer

i said agree because some people aren't behaved well

I learn lots even when some children misbehave

some other people are naughty

Because boys mess around.

because some of the behavior is not really good

SOME PEOPLE ARE RUDE

The teaching is good and staff help me understand what i am learning but sometimes there are children who hold back the lesson and teachers dont send them out straight away or even after their 3 warnings and it gets distrupive and holds my learning back

because some times people do bad things.

this is because some people talk back to the teacher and they sometimes don 't listen to other people

i think this because sometimes people talk

i chose this because there are rare occasions were people are having an attitude and not much is happening about it

some people swears and do rude things. but the teaching is amazing and all of the teachers are wonderful

Because the teaching is at curriculum level but there are some misbehaviors in the school as people do get hurt despite the teacher's best attempts to keep peace

because sometimes there can be little tantrums and violence

Most behaviour is good and the teaching is good but some people don't behave all the time.

Because some people don't follow the specific rules the teacher have asked them.

some people are not very good and continue to do the bad things like hitting and hurting others feelings

because people get told off when they do something bad

because now we have the traficklat sistom

The behavior is good because of the behavior chart and the teachers make sure everyone ia participating

because i was on gold once

the behavior is good because we have a traffic light system that can move you down or up so your behavior is good or not

the behavior is good because we have a traffic light system that can move you down or up so your behavior is good or not

teaching is fun and the traffic light system is working but it is not fair

because we have a system of traffic lights which can reward us

The behaviouir is good because my friends are always nice

Because teaching is good for children and our behavior is good too

Because i have learnt alot of things as decimals and frations.

The teacher keeps me healthy to learn

because i lison
because i always learn

they punish you a fair way.

Because it's fun

CHILDREN ARE VERY NICE

I learn so much at school.

no geting very badly hurt but some accidents

they always pick on me and i hate it

the gates

because people get told off when they do something bad

because teaching is good for learning and our behaviour is good

On average it is O.K.

Because sometimes teachers doesnt remember how much people can do

In class i am often distracted by my classmates and sometime the learning gets confusing
