

Geography
Year R

Food

Space and place

Where does my food
come from?

Food from around

Food from England

Food from Poland

Food from India

Interdependence

Why does my food
come from different
countries?

Climate zones

Geography

Year R

Minibeast

Landscapes and Environments

Where do minibeasts live?

Habitat

Micro

Geography
Year 1

Our Home

Space and place

Where is our home
and how do we fit
into the world?

1. Our school

2. Our town

3. Our country

4. Our continent

Sustainability

How can we protect
our environment?

5. Recycling

6. Saving energy

Geography
Year 1

Give me a home among the gum trees

Geography
Year 2

It's a pirates life for me!

Space and Place

Interdependent

Where are the pirates traveling?

Where does our food come from?

1. Continents & Oceans

1. Weather conditions
on each continents

2. Differing natural fea-
tures in each continent

2. Human involvement
in food growth

2. Differing man-made
features in each continent

3. The journey of our
food

3. Differing cultures in
each continent

Geography
Year 2

Geography
Year 3

Habitats and climate zones

Space and place

Landscapes and environment

Is the weather the same everywhere in the world?

How does the climate effect plants?

How does the climate effect animals?

Tropical

Plants in each zone

Animals in each zone

Arid

Meditation

Climate change and what we can do

Temperate

Continental

Polar

Geography
Year 3

Geography
Year 4

Legoland—Comparison within Europe

Space and Place

Where is LEGOLAND? (UK and Denmark)

Locate L.L on maps of the UK and Den-

Identify human/physical features in area surrounding LL Denmark

Identify human/physical features in area surrounding LL UK

Interdependent

What do the UK and Europe have in common?

Identify similarities and differences between UK and Europe.

Geography
Year 4

Geography
Year 5

Concrete Jungles

Space and place

Human Progress

Sustainability

Where are our key cities located?

What are the similarities and differences with cities around the world?

How can we live our lives in a sustainable way?

London

What cities need

Where does our energy come from

Paris

Settlement type

Renewable or Non-renewable energy

New York

Reduce, reuse, recycle

Rio De Janeiro

Geography
Year 5

Natural disasters

Landscapes and environments

Space and Place

Interdependence

How do natural disasters impact the environment?

Why are some places in our world more prone to natural disasters?

How do natural disasters impact the local population?

1. Volcanoes

2. Earthquakes

3. Tsunamis

4. Bush/forest fires

Geography
Year 6

Mountains and national parks

Landscapes and environments

Space and Place

What are some key features of our national parks?

How does the environment change as we travel up a mountain?

What comparisons can be made between Snowdon and Everest ?

Snowdonia National

Habitats

Environmental concerns

Climate and habitat changes in each

Effects of Altitude

Local communities

Habitats

Climate

Environmental concerns linked to tourists/ climbers

Geography
Year 6

Trade and economics

Interdependence

Human Progress

How do our trade help shape our every day lives?

How goods and services are traded around the world

Benefits of international trade

Positive and negative effects of multinational companies

How has the focus of trade changed over recent decades?

Global Market
Globalisation

Brexit—import and export links with the UK

Why is fair trade so important now?

Fair trade - how it helps the communities

CAFOD

Sustainability
